Hi Amy - I have a copy of the book chapter for footnote 60 sitting on my desk, so still need to make a copy of it to pdf and send to you. It's a long book chapter, so I'm not sure how we want to do it. Jayne, if you have ideas, let me know. I'll check on Footnote 58.

Alan, I can ask the library to get footnote 35 if you'd like.

Thanks, Amy. This is all really helpful. - Jenny

Subject: Draft OR CZARA Decision Document Reference Review

Hi all,

Attached is a draft review of the OR CZARA Decision Document references. We had just a few questions or pending items; these are shaded in yellow in the attached and are summarized below:

1. Footnote 32: Paper was found without details on the citation – outside of the conference proceedings. Title matches, so we assume this is accurate. Please provide correct citation, if not.
2. Footnote 35: Unable to obtain copy of article.
3. Footnote 58: Reviewed the document but was not able to find any text that matched the language in the decision document. Can you identify a specific page to clarify?
4. Footnote 60: Unable to obtain copy of book chapter.

In addition, all of the references in the footnotes have been compiled on the SharePoint site, in case this is helpful for you. Please see the link below:

Please let us know if you can help provide clarification on the outstanding issues listed above and we can fill those in. Also, we identified some potential updates to the footnote text to maintain consistency with or to clarify the citation...these are included in the last column.

Hopefully you will find this useful. Please let us know if you want to discuss or if you have any comments/questions that we can address.

Thanks,
Amy
